

## Credit Transfer Factsheet

### BSc (HONS) NURSING (R39)

If you have previously studied elsewhere and your studies were completed at the same academic level as OU modules, we may be able to award you credit transfer towards an OU qualification: this will reduce the number of OU modules you have to study to complete your OU qualification. You need to decide which OU qualification you wish to study for with us before you can apply for credit transfer.

This factsheet tells you about transferred credit from elsewhere into this particular OU qualification.

#### **Please note that:**

- Applications for credit transfer towards a Nursing qualification with The Open University should only be submitted when you have formally applied to the Nursing Programme and only when the specialist Nursing Team have provided you with the application pack which advises on how to apply for credit transfer. This is because the application process can differ depending on which qualification you have previously completed and the documentation which would be required for an assessment of credit transfer can vary.
- An award of credit transfer towards this qualification does not guarantee acceptance on the programme.
- We can only confirm how much credit you can be awarded once you have made a formal Credit Transfer application which has been considered by an OU assessor.
- Your previous studies must be at the same academic level and carry at least as many Credit Accumulation and Transfer (CATS) points, as the OU study from which you are to be exempted. More details about CATS points and levels can be found on our website at <https://credit-transfer.open.ac.uk>.
- We will award you as much credit transfer as possible, but this may be less than the maximum available towards this OU qualification. This is because the amount of credit transfer you can be awarded depends on several factors (such as the number of credits you achieved and how closely your previous study matches the OU modules).

## Credit transfer towards the BSc (Hons) Nursing (R39)

### Maximum credit transfer available towards this qualification

The maximum number of credits that can be transferred towards this qualification are shown in the table below. The actual number of credits that you are awarded will be determined when your application for credit transfer has been assessed and may be less than the maximum shown below. Credit transfer towards this qualification will be awarded in multiples of 60 credits.

<b>Total number of credits required for this qualification</b>	360 credits
<b>Maximum credit transfer</b>	180 credits
<b>Minimum number of OU credits to be completed</b>	180 credits
<b>Maximum age of previous study</b>	*Completed up to 5 years ago

### Time limits towards this qualification

The maximum duration of study for the BSc (Hons) Nursing is 6 years from the date of starting the OU programme. The study forming the basis of an award of transferred credit does not need to be within this 6 year time limit.

### Age of previous study

For this qualification we can consider previous study completed up to 5 years ago for credit transfer. \*Under exceptional circumstances we may be able to consider study completed up to 10 years ago if you have kept your prior learning up to date with current practice. We will calculate the age of your previous study using the date we receive your completed application with all required supporting evidence.

### Study for which you could be awarded credit transfer

You can apply for credit transfer towards this OU qualification if you have any of the eligible previous study shown on our website

<https://credit-transfer.open.ac.uk>.

When we assess your application for credit transfer, we will look at how similar the study you completed is to the OU modules in this qualification.

How much credit you are awarded is likely to depend in part on how closely the subjects of your previous studies match those of the modules in this qualification.

If your previous study is in an unrelated subject area, we will not be able to award you credit transfer towards this qualification. To read about the subjects covered in this qualification visit the qualification description:

<https://www.open.ac.uk/courses/nursing-healthcare/degrees/bsc-nursing-r39>

### **What do I need to provide with my application?**

Every application must be supported by official evidence, usually in the form of an academic transcript and a certificate. Please see the application form and the FAQs on our website for more information about the evidence you will need to provide.

If you are a holder of a completed Foundation degree or a Level 5 qualification which has led to NMC registration as a Nursing Associate, with current live registration, you will only need to submit your credit transfer application, along with your Foundation degree or Level 5 qualification certificate. At a later date in the process the nursing team will email you an additional form so that you can evidence your NMC PIN number and cover any other requirements.

If you are a holder of an Assistant Practitioner qualification (normally a Foundation degree/FHEQ L5 award), which has been achieved via an apprenticeship, you will only need to provide your apprenticeship certificate with the title 'Assistant Practitioner' and your accompanying academic transcript for your Foundation degree (which may not include 'Assistant Practitioner' in the title).

For all other types of previous study, you will need to submit your credit transfer application form, an official academic transcript, and the learning outcomes/syllabus information for your previous study. This is so the academic assessor can map how closely your previous study matches the learning outcomes of the OU modules in the qualification. Your academic transcript will provide a list of the modules or units you completed, but syllabus information/learning outcomes provide a detailed description of the content of each of those modules, often about a paragraph per module/unit. Unfortunately, we are unable to carry out an assessment without this information. Further along in the process, the Credit Transfer Centre will email you a Recognition of Prior Learning (RPL) Form which will capture the learning outcomes from your previous study mapped against the OU module(s) you are seeking exemption from. It will also capture your practice experience, if any.

### **Unique study rule**

For each OU qualification, you must include an amount of OU study that is unique

to that particular qualification (credit from study completed at the OU which has not previously been counted towards another OU qualification). Full details are given in the degree regulations, in the Qualification Regulations section of the qualification description: <https://www.open.ac.uk/courses/nursing-healthcare/degrees/bsc-nursing-r39>.

### Further information you will need

To find out more about credit transfer, and to download a Credit Transfer application form, visit our Credit Transfer website: <https://credit-transfer.open.ac.uk>. This site also tells you what previous study can be used for credit transfer and explains in detail how the application process works.

You should read this Credit Transfer Factsheet in conjunction with the qualification description which can be found at: <https://www.open.ac.uk/courses/nursing-healthcare/degrees/bsc-nursing-r39> which

- Contains the qualification regulations and associated time limits
- Contains the University regulations
- Gives information on the structure of your chosen OU qualification

### Have you considered our BA/BSc Open degrees?

You may be interested in finding out more about our unique Open programme:

- It gives you a huge choice in terms of the subjects and modules you study to make up your Open degree: you can take modules from any of our undergraduate subjects.
- Currently the only restriction on the age of credit counting to the Open degree is that the study must have been completed in the last 16 years.
- Previous study completed in any subject area can be transferred into the Open degree.

You can find out more from The Open Programme website:

<http://www.open.ac.uk/courses/open-qualifications>
